Scenario 1: View Active Order

Scenario Description

- The intent of the View Active Order test scenario is to test the normal and alternate flows of a registered staff member logging into the app and viewing orders.

Test Scripts

The following scripts will cover this scenario:

- 1.1 View Active Order - Empty Staff ID field
- 1.2 View Active Order - Staff ID Not Equal to 4 Digits
- 1.3 View Active Order - User Enters Valid Staff ID
- 1.4 View Active Order - User Clicks Active Order
- 1.5 View Active Order - User Clicks Checkboxes Next to Order Items

Use Case

- View Active Order

Test Components/Requirements

This test scenario covers the following high-level test requirements (see scripts below for specific requirements covered by each test script):

- Data Integrity
- Fill Order (staff)

Beverage Booker

FAT Document - Cafe Staff Application

Script 1.1: View Active Order - Empty Staff ID Field

Script Description

- The tester will open the cafe staff application on the Android Studio emulator
- The tester will click the 'Click to View Orders' button
- Expected result: The app will focus on the Staff ID field and display a message: "ID is required"

Testing Requirements

This test script covers the following specific testing requirements:

- Account Creation/Login
- Data Integrity

Setup

- A set of valid test data for account creation
- The user has opened the cafe staff app on the Android Studio emulator
- The connection to the server is stable and the database is online

Script Steps

Step #	Test Action	Expected Results	Pass / Fail
1	User clicks the 'Click to View Orders' button	App focuses on the Staff ID field and displays a message: "ID is required"	Pass

Test Execution

Date/Time	Tester	Test Phase	Status
23/06/20 11:51 am	Benn Curby	LCAM	Passed
23/06/20 19:20 pm	Jacob Kennedy	LCAM	Passed
23/06/20 9:57 pm	Emily Carter	LCAM	Passed
23/06/20 10:28 pm	Jake Durnford	LCAM	Passed

Test Data Table

Data Field	Benn	Jake	Emily	Jacob
Staff ID	null	null	null	null
