

Customer - Beverage Booker Beta Test Instructions

Thank you for taking the time to take part in testing our project. This testing will allow us to fine tune our project.

Step 1:

In the email sent to you there was a Tester ID given. This ID is used to help us identify any issues you specifically have. Please take note of this ID as you will need it for the survey.

Step 2:

Install the app from the opt in link you were sent.

Step 3:

Once you have installed the app, please open the beta test survey.

The beta test is broken into sections. It is probably easiest to complete a section task in the app along with applicable survey questions, before moving onto the next section.

Please try to complete the test tasks initially without assistance. However, if you do have trouble links to a help video are provided within the app.

On the web site provided to you, if required there is also a troubleshooting guide should you encounter any error messages.

The sections of the Beta test:

Section 1:

Input the tester ID you were assigned in the email.

Section 2: Hardware Specifications

Please fill out the details for the hardware you will be using in the test.
